Thanks for the update Lisa. Eric- it looks like we are moving forward with the lamprey/sturgeon FSPs. Are we to expect some form of written response from EPA re the LWG lamprey/sturgeon proposal and subsequent discussions? We will need a go-ahead from EPA to justify getting funding from our Senior Managers. Thanks, Jim.

Subject: Ecorisk status update

Hi folks, here are my thoughts on the status of ecorisk issues.

- 1) We have agreement between myself, Bob, Joe, Jennifer on lines-of-evidence table. Unless others that weigh in disagree, I am ready to move forward with this table.
- 2) Weight-of-evidence table - we are working on this and hope to be complete by end of July. But we don't see this as holding up the Round 2 report in any way.
- 3) Lamprey/Sturgeon - we are moving forward with FSPs, based on agreements (tentative) in technical group (still a lot to work through though), but now need to weave into EPA process and get Joe's ideas/buy-in and path forward.
- 4) TZW-we have agreement on screening but need to work through ecoframework process on what to do if TZW concentrations exceed screening values.

Anything else Joe that I am forgetting?

Lisa
